There are many hindrances
to a cheerful life When pain
racks our body or when we are
tired of lying on the bed for weeks and months it is hard to smile The Joy 1s often driven out of life by financial troubles. It is herd to look pleasant when the bank has closed when we lose our job and our little savings account is depleted and there are jet bills to pay Ir is not easy to be joyful when death has entered the home and stolen our loved one or a close friend away. When everything seems to go against us it is hard to look pleasant. And jet as weeks and months it is to look pleasant. And let as the post wrote. If there be plenty of gloom to make us glum there is plenty of gloom to make us glad Jesus said I am the light of the world John 8 12 If we believe in Him we have a light. The lew rackers it a pumishable offense, not only to junt such an ellow mee but for the buyer knowingly to receive such a benefit. The moofing as allowances consiliting a form of commercial brilery and have as their primary objective the squicking of empellities and the exaction of a monogoja may given field they are merely another care of the many forms of restraint of trade which the Sherman law and later the Chapton haw were designed to sholish. But the new development is the way the law is to be enforced and particularly the way the congress has set up to determination. If a discount is given for quantity purchase can it be justified on the ground of economy in production or in a fling expense. If there is an economy should all pinchase can it by justified on the gratuals of economy in production or in a fling expense. If there is no economy should all the customers even those who buy ansalt amounts be given the benefit of the same remains in a prepartiment emount for if those is a saving of nechased it is jusper to though all that saving to the benefits obtained from a single quantity sair

These and kinded questions which the law rates will require the most compile atted and minute system of bookkeeping and cost accounting that will me in for years to controll the law is retained a pretramental supervision of business operations comparable only to the ried tape which the indicate have to go linough before they can increase a freight rate or abandon a branch time.

abandon a branch line. But alligands have always here acknowledged to be public utilities and os such subject to government regulation because this are natural monopolits. If the Robinson Patrans law is uplied by the court it will mean that every business can be regulated as are the utilities and inner what was desired under the NRA would be accomplished by the Robinson bill. Thus for instance congress has delegated this time to the federal trade commission the nower to fix nauntily discounts if in

power to fix quantity discounts if in judgment of the commission the quan the judgment of the commission the quan-tity classifications are so large as to sifout the benefit of a tow price to only a few-customers. Act the effect of the Robinson Palman law may be to increase prices at the retail

100 the effect of the Robinson Patman the effect of the Koomson Palman has man be to initiose prices at the retail street and cause a gradual risk in the cost of living. It may also increase the profits of lorg, preducers. It may not bein the ind pendent at all because a manufacturer who specializes in large order can pick his own customer and the law while pro-fessing to forbid su h discrimination actual is has toothoics enough to permit it
